Dimensions in mm

#### Technical details:

Hardness: 265 Hv minimum.

Tightening torques: see table.

Chemical analysis of raw material: see table.

Stainless steel AISI 316 (A4)

has a very high acid resistance and it is an antimagnetic material.

#### Features and specific use:

Spring washer which has:

- a round knurled ring with resistance to loosening on its contact surface with the screw's underhead.

- a series of teeth on the surface in contact with the supporting field, which doesn't allow the rotation of the washer during the tightening.

Recommended for electrical contact fasteners.
